Stamford-Nevada Development Co. Company was organized under the laws of Arizona on July 24, 1905, with an authorized capital stock of $1,000,000, par $1. Mining claims in the Goldfield district of Nevada. Last known officers: President, Charles W. Minor; secretary, C. W. Rendel. We understand the treasury stock sold for $.05 a share to a large extent in Stamford, Conn. In 1910 it was stated that no ore had been taken from the property except for assay purposes and in that year we were unable to find a purchaser for the stock at Stamford, Conn. or elsewhere. Under a law passed by the 1923 Arizona Legislature, the Arizona Corporation Commission is required to take judicial action against all corporations which have failed for a period of two (2) years or more to file their annual reports and pay the fees thereon. Unless all fees and court costs are paid, said corporation will be declared legally dead. This company has failed to make annual reports or pay annual fees as required by law and is therefore legally dead.

Standard Amalgamated Exploration Company, The. The origin of the Standard Amalgamated Exploration Company dates back to 1907, the moving spirit of the company being Mr. Victor M. Weil, who it has been reported was deeply concerned in several mine swindles and in 1911 was charged and arrested for misusing the mails to misrepresent the value of stocks of mining companies he had interest in. In 1907 Mr. Weil secured six claims in California, Nevada, which had been located by a Mr. Jefferson F. Howell, a mining engineer, and organized the Howard & Little Mining Company under the laws of Arizona, with a capitalization of $200,000. These claims were said to have never been worked and worth nothing. One of these claims was purchased late in 1907 by a new corporation called the United States Gold Mining Co., which Weil had organized, and the money received by the Howard & Little Company from the sale of this claim was used to pay a 4 per cent. dividend on the stock. At about the same time the V. M. Weil Exploration Corp. was organized and purchased another of the Howard & Little claims and the proceeds from this sale enabled the latter to pay another 4 per cent. dividend on its stock. In like manner the Nevada-Boston Mining Co. was organized and took a third claim and the Rawhid-Boston Mining Company followed, taking a fourth claim out of the six in possession of the original company and in each case the Howard & Little Company used the money thus obtained to pay a 4 per cent. dividend. Later, in January, 1909, we believe, all of these companies were consolidated under the corporate name of Standard Amalgamatd Exploration Corporation, which was organized under the laws of Nevada with an authorized capitalization of $1,500,000 with a par value of $1 each. There were also $40,000 of bonds outstanding. The company was promoted by the Inter-Trust Security Company which we understand was only another name for Victor M. Weil, who was reported to have been still indirectly connected with the new company. Operations on the mine stopped about 1916 and mine has been idle since that time. Mail was returned from company's office in the Gahin Bldg., Boston, Mass., in 1926. Reports show that there were 1,264,233 shares of stock outstanding when last information was given out by company and we understand that no dividends were paid up to 1917 and it is doubtful whether any were ever paid. The Nevada charter was forfeited through failure of the company to pay 1923-1924 taxes. Apparently this company has been dead for some years and there is no market for any of its securities.

Standard Coal & Iron Company. Organized under the laws of Ohio in 1881 with an authorized capital stock of $25,000,000, par $100 as a consolidation and purchase of several of the Hocking Valley properties. The officers in 1882 were as follows: Samuel Thomas, pres.; W. D. Lee, vice pres.; Oliver Amer, vice pres. and treas.; J. H. Brooks, vice pres. and secy.; William Harrington, asst. secy. As of February 1, 1882, company authorized a $12,000,000 6 per cent. bond issue to mature February 1, 1922, with the Farmers Loan & Trust Company of New York City, trustee. In addition to this mortgage, we understand that there were prior mortgages and in 1882 or 1883, proceedings were instituted by the holders of these prior mortgages to foreclose such mortgages, the result being that the property of the company was sold and the mortgage made to the Farmers Loan & Trust Company was wiped out. The Standard Coal & Iron Company first mortgage 6's of 1882 was never foreclosed, probably because there was nothing left to foreclose and in this manner these first mortgages were wiped out by the prior underlying liens and are of no value.

Standard Marble Onyx Company. This company was incorporated under the laws of the state of Washington about 1902 with a capital stock of $1,500,000 divided into shares of a par value of $10. One-third of the capitalization was originally treasury stock, about 20,000 shares of which had been sold in 1903. Company claimed to own 1,000 acres of marble land three miles east of Colville, Stevens County, Washington. Company claimed also to have no debts. In April, 1903, stock was offered at $2.50 per share. Officers were reported as follows: A. S. Paton, also president of the Paton Manufacturing Company, Leominster, Mass.; Samuel Douglas, vice-president, ex-judge Court of Probate, Coluille, Washington; J. W. Douglas, attorney, Spokane; R. D. Miller, treasurer, Spokane & Eastern Trust Company, Spokane, Washington. Besides the officers: Meredith E. Lawson,

LIFE Insurance is an investment that is sure never to lose value. And for a relatively small sum, it creates an ample estate for wife, children or other dependents—long before the slow process of accumulation could do it.

Boston; Irving S. Fog, M.D., Norwood, Massachusetts, and George E. Phillips, manufacturing, Leominster, Massachusetts, comprise the board of directors. Mine contained a great variety of colored marbles for which there was supposed to be a growing demand. Company was stricken from the records of the department of the state of Washington on August 23, 1909, for failure to pay annual license fees, since when it has had no legal standing. There are no recent sales or quotaitons of the capital stock and the company has been legally dead for many years.

Standard Match Company. Formerly the Salvation Match Company. Incorporated under New York laws with an authorized capital stock of $400,000 preferred, par $100, and $400,000 common, par $100. Outstanding in last reports, $150,000 preferred and $250,000 common. About 1917, name was changed to the Standard Match Company and we understand from the Treasurer at that time, that the company had been carried along by the efforts of the directors and their liberal subscriptions to the company's notes. He then quoted prices of $25 on preferred and $5 on the common. Company was liquidated in 1922-1924. Dividends totalling $17.43 were paid in liquidation to holders of preferred stock; common stockholders, however, received nothing. If your stock certificate does not show the receipt of this dividend, communication with Mr. Breckenridge at 331 Madison Avenue, will ascertain how it may be obtained. Officers of the company were as follows: Wm. L. Sanders, president; Marshall P. Slade, vice-president; J. Bellman, secretary. Directors were as follows: Wm. L. Sanders, Theodore F. King, Albert Blackburne, E. J. Volkman, Marshall P. Slade, S. J. Suffern.

Stanwood Rubber Company. Incorporated under the laws of Delaware on January 29, 1919, to manufacture automobile tires and other rubber commodities and that it acquired practically all of the capital stock of the Hardman Rubber Corporation of New Brunswick, New Jersey. The last known officers of the company were: S. P. Woodward, chairman of board; C. E. Barker, president; Edward Hutchens, vice-president; R. B. Gillette, secretary and treasurer; W. G. De Voe, assistant secretary and treasurer; and the general office at Elizabeth, New Jersey, and the executive office at No. 9 East 40th St., New York City. The capital stock authorized consisted of $2,500,000 8 per cent. cumulative first preferred, par $100; $500,000 8 per cent. cumulative second preferred, par $100; and 500,000 shares of no par value common, of which there was outstanding $12,800 first preferred, $275,000 second preferred and 296,533 shares of common. The preferred and common were not listed on any stock exchange and at no time enjoyed an active open market. However, the common stock was occasionally quoted in the open market and that the following is a complete list of all such quotations:

	Bid	Shares	Asked	Shares
1919				
October 27			Market	500
1920				
June 2			Market	25
July 6	$3.00		$5.00	25
July 10	Market	100	Market	100

December 10			$1.25	100
December 18	50 shs. sold at auction @ $2 the lot.			
December 31			$1.00	100

The common stock was originally publicly offered in October, 1919, at $17 a share for 75,000 shares. On application of George I. Culp of the Mutual Tire and Rubber Corporation, Vice Chancellor Backes in November, 1920, appointed temporary custodian receivers for the Stanwood Rubber Company and the Hardman Rubber Corporation and according to complaint filed, the Hardman Rubber Corporation had liabilities of $290,000 and exceeded the assets by $125,000. At the time of receivership, the Stanwood Rubber Company was stated to have outstanding $300,000 of bonded indebtedness and $197,000 of notes, all past due. Temporary receivers were made permanent on November 30, 1920, and J. T. Kirkpatrick of New Brunswick, New Jersey, was the receiver appointed for the Stanwood Rubber Co. In October, 1921, the receivership was terminated by the sale of all property and assets of the Stanwood Rubber Company in the Chancery Court in Newark, New Jersey, before Vice Chancellor Backes, for $360,000. All the financial difficulties of the Stanwood Rubber Company were generally publicly known through press reports appearing in the papers in the latter part of 1920. The common stock was freely offered for sale publicly during the latter part of 1920 with no bids of any kind and only one public sale at auction at a nominal figure. The Delaware charter of the Stanwood Rubber Co. was forfeited on January 27, 1923, at which time two years' State taxes were unpaid.

State of Massachusetts. In re to bond of State of Massachusetts in the amount of $1000 Spanish milled dollars, due December 31, 1786, bearing interest at 5 per cent. These bonds were purported to have been assumed by the United States by resolution of Congress as of March 18, 1780, however, under the provisions of Section 13 of the Act approved August 4, 1790, obligations issued by the Colony of Massachusetts, the proceeds of which were used in the prosecution of the Revolutionary War, were receivable until September 30, 1790, in subscription to a loan, the time being subsequently extended by the Act of May 8, 1792, to March 1, 1793. The Treasury Department of the Commonwealth of Massachusetts advises us that the Attorney General of Massachusetts has ruled that the Commonwealth is not liable for the principal or interest of these bonds. We therefore believe them valueless at the present time.

Steel, L. R., Company, Inc. Organized in Delaware on October 16, 1919, to operate chain stores. Capital stock authorized 100,000 shares of no par value common and $10,000,000 preferred, par $100. L. R. Steel, organizer and president of the various L. R. Steel enterprises, resigned January 27, 1923, from all connection with the companies, his resignation becoming effective immediately. He died on March 22, 1923. Early in February, 1923, after many conferences with representatives of the Steel enterprises, it was deemed advisable to obtain the cooperation of creditors in the administration of the various companies, and accordingly a Creditors' Advisory Committee was appointed which continued to function until March 7, 1923. On February 24, 1923, stockholders formed an Advisory Committee to cooperate with management of company. On March 7, 1923, twenty companies comprising the L. R. Steel Company, Inc., and subsidiaries were placed in the hands of William W. Reilly and Charles B. Smith of Buffalo, New York, and D. M. Lewis, New York, as Receivers by Federal Judge Hazel at Buffalo, New York. Attorneys for Receivers were Kenefick, Cooke, Mitchell & Bass of Buffalo, New York, and Samuel Blumber, 200 Fifth Avenue, New York City. On April 30, 1923, petitions in involuntary bankruptcy were filed against the L. R. Steel Company, Inc., and the Steel Realty Development Corporation. On May 23 and 24, 1923, meetings of creditors were held before Hon. James W. Persons, Referee in Bankruptcy, at which time the receivers appointed were duly elected Trustees in Bankruptcy. Under Protective Trust plan, explained in general letter of August 26, 1924, to subscribers to Protective Trust, all of the issuable securities of Steel's Consolidated, Inc., were issued to the Protective Trust so that in turn subscribers to the Protective Trust became holders of the securities of Steel's Consolidated, Inc., to the extent of the par value of their Trust shares, plus preferred stock in like amount, plus Class "B" common stock, share for share to the number of Protective Trust shares held by the subscriber. Debenture rights were convertible at holder's option into an additional amount of preferred stock rights at the rate of 120 per cent. of the face value of the debentures. In other words, subscribers to the Protective Trust were to receive three classes of

securities in Steel's Consolidated, Inc. The Protective Trust was known as the L. R. Steel Stockholder's Protective Trust and participation in the reorganization effected, insofar as securities of the reorganized company, Steel's Consolidated, Inc., were concerned, was limited primarily to those stockholders who came into the Protective Trust and purchased shares in the Trust. There was no equity remaining for the stockholders of the L. R. Steel Company, Inc., not subscribing to the Trust and becoming parties to the reorganization. Delaware charter proclaimed repealed for non-payment of two years' taxes January 26, 1926.

Steel & Radiation, Ltd. Organized in Ontario, Canada, as a consolidation of the King Radiator Co., Ltd. and the Expanded Metal & Fireproofing Co., Ltd., both of Toronto, Canada. Capital stock autorized, $300,000,000 common and $2,000,000 7 per cent. cumulative preferred, par $100 a share. The funded debt consisted of $1,000,000 First Gold 6's dated April 1, 1911, due April 1, 1931, with the Montreal Trust Co. of Montreal, Canada, Trustee. On March 1, 1911, a receiver was appointed and in June, 1921, Company went into liquidation. Plan of Reorganization dated April 24, 1922, and approved on June 2, 1922, provided that each $100 par value old First Mortgage 6 per cent. bond dated April 1, 1911, due April 1, 1931, received the following securities of the new company: (a) $40 par new Second Mortgage Bonds, (b) $15 par new stock, (c) $15 par new participation certificates. Among the unsecured creditors $50,000 new capital stock was distributed pro rata. No provision appears to have been made for the old capital stock, either preferred or common.

Steelcraft Corporation of America. On June 22, 1925, Frank E. Hainen of Cleveland, Ohio, was appointed receiver for this company; J. S. Hurd was appointed attorney for receiver. As of December, 1926, receiver still operated property. Under date of November 21, 1928, we received the following letter: "Replying to your inquiry with regard to the Steel Craft Corporation of America, I wish to advise that the undersigned was appointed Receiver for said Company by the Court of Common Pleas of Cuyahoga County, Ohio, in cause Number 243,-785, entitled Harry C. Rice, New York City, Plaintiff, vs. Steelcraft Corporation of America, Defendant, on the 22nd day of June, 1925. Since said date the undersigned as Receiver has been operating the National Safe Division of said Corporation and will continue to do so until further order of the Court. At the time of the appointment of the receiver, Steelcraft Corporation of America was in default on its first mortgage bonds and on other obligations and since that time the court has ordered a decree of foreclosure of the first mortgage bonds and of a second mortgage held by the Central National Bank Savings and Trust Co. of Cleveland, Ohio. Unless some plans are effected by way of refinancing the first and second mortgages, and of liquidating the claims of creditors, it is possible that the assets of the Corporation will be ordered sold by the Court under its decree of foreclosure and the proceeds used to pay the outstanding obligations of the company in accordance with their priority, in which event it is not likely that there will be any equity for stockholders. The Receiver has been making every effort to conserve the assets of the company for the benefit of the creditors and stockholders and will be glad to co-operate in any way possible for the best interests of all concerned. In the event that any further information is desired, you may secure the same by addressing a letter to the Receiver or to the Attorney for the Receiver whose addresses are hereinafter set forth, enclosing a self addressed, stamped envelope for reply." Joy S. Hurd, Attorney for Receiver, Steelcraft Corporation of America, 709 Society for Savings Building, Cleveland, Ohio, Cherry 2620; Frank E. Hainen, Receiver of Steelcraft Corporation of America, 931 Society for Savings Building, Cleveland, Ohio, Main 505. In January 24, 1927, the charter of the company was forfeited for non-payment of taxes.

Y., vice president; Jno. L. Williams, 1465 Broadway, N. Y., treasurer; Otto C. Heinze, 45 E. 72nd St., N. Y., secretary. Directors: J. E. Harrington, Jno. L. Williams, Arthur P. Heinze, Otto C. Heinze. Otto Heinze, who is living at 124 E. 84th St., N. Y. City, states that there is litigation going on now between this company and the Stewart Silver Lead Company and consequently operations have ceased for the time being. He advises that the best thing to do is to hold on to the stock and await developments and that security holders will be informed when a settlement is made.

Stewart Mining Company, Texarkana, Arkansas. Incorporated March 26, 1896. Authority revoked by Governors' proclamation of April 23, 1923, under Act No. 158 of 1923.

Stewart Mining Company. Organized under the laws of Idaho on August 29, 1902, and controlled the Coeur d'Alene Development Company and the Nabob Consolidated Mining Co. Property consisted of the Stewart Mine at Kellogg, Idaho, comprising 150 acres. The Stewart Mine was located in 1896 and worked in a small way until 1910 when control was acquired by F. Augustus Heinze. Its importance as a producer ended with 1915 and company lost control of the Nabob Consolidated Mining Company and the Coeur d'Alene Development Company. We understand that the old Stewart mill was removed in 1918 to the Nabob and that except for leases, the Stewart Mine has been idle since 1917. Capital stock authorized $3,000,000 increased from $1,250,000 in 1916; outstanding $2,738,362; par $1. Dividends paid at the rate of 10 cents quarterly from 1913 to December, 1915, with extra dividends amounting to 32½ cents in 1913; 62½ cents in 1914; 70 cents in 1915. Rate was reduced to 5 cents quarterly in 1916, none since. The last reported officers were as follows: J. E. Harrington, president, treasurer and director; L. J. Williams, secretary and assistant treasurer and director; Noah Rockwood, counsel and director; W. Harrington, director; Albert H. Featherstone, director. On November 20, 1923, the Stewart Silver Lead Company was organized under the laws of Idaho with an authorized capital stock of $3,000,000; par 25 cents, as a reorganization of the Stewart Mining Company and the stockholders of the latter company were given the right to exchange their stock, share for share, for that of the Stewart Silver-Lead Co., upon the payment of an assessment of one cent per share. The right to make this exchange and pay the assessment expired in November, 1927. The office of the company is now in care of J. E. Harrington, president and treasurer and director, at 234 West 44th Street, New York, and Mr. Harrington advises that anyone that can prove they were stockholders at the time the reorganization took place, can still exchange their stock on the share for share basis upon the

payment of the assessment of one cent a share. Mr. Harrington explains that this offer is continued due to the fact that it is not the desire of the present management to wipe out the equity of old stockholders, but that no holder of stock purchased since the reorganization will be considered. The only sale that we find of the Stewart Silver-Lead Co. stock took place at auction on December 14, 1927, at which time 3,500 shares sold at $10 the lot. Mr. Harrington states that due to recent developments at the property the stock of the present company is worth double the assessment, but outside of this statement there does not appear to be any open or public market. Charter forfeited in October, 1919, for non-payment of taxes.

Stewart Silver Lead Company. Incorporated Idaho, November 20, 1923, as a reorganization of the Stewart Mining Company. Capitalization, $3,000,000. par 25 cents decreased from $1 par. Property: 12 claims in Yreka district, Shoshone County at Kellogg. Officers: J. E. Harrington, president and treasurer; J. L. Williams, secretary and assistant treasurer with Nash Rockwood, counsel and Judge A. F. Ailshie as directors. Last reported address in 1926, Room 503, 1465 Broadway, N. Y. C. Registrar, Metropolitan Trust Company. The mine has been idle for several years. On December 14, 1927, R. L. Day of Boston sold 3,500 shares of this stock for $10 the lot.

Stratton-Massachusetts Gold Mines Company. Incorporated under the laws of Colorado in 1904 with 1,000,000 shares of capital stock. It was reported in 1905 that company appeared to have a capital stock of 100,000 shares par value of $1 and that originally 10,000 shares were alloted to the treasury and the writers were informed that 7,500 shares remained unsold, the price of the treasury stock being $10 per share. We understand from this report that 10,000 shares of the stock is preferred, though to what catagory the treasury stock belonged we do not know. The president of the company, Mr. N. A. Stratton, advised that company was clear of debt. Properties were reported to consist of six claims, two of which were patented, or about 60 acres in the Trout Creek District, Chaffee County, Colorado, the same being located on Gold Hill. Company had a substantial mill, which was said to represent a cost of $18,000. As of July 22, 1902, the company was not ready to operate and there had been no production. No information was officially given out as to the physical situation of the enterprise, but management claimed that prospects for dividends was good and that they had plenty of ore. The officers at this time were reported to be: N. A. Stratton, president, treasurer and general manager, and C. A. Wood, secretary. On September 2, 1913, company was declared defunct and inoperative and as taxes were not paid the Colorado charter was forfeited.

MEN often leave behind them quantities of worthless stock certificates. Every occurrence of that kind stresses the need for life insurance. Had they put their faith in insurance, their estates would have had cash in hand when needed.

Gloucester City, N. J.; secretary and treasurer, T. W. Maclary, Gloucester City, N. J. Office: Ellis and Essex Sts., Glouster, N. J. Resident agent: Corporation Trust Company of America, du Pont Bldg., Wilmington, Delaware. The company discontinued operations some five years ago, since which time efforts have been made to dispose of the equipment which, when completed, will result, we believe, in some distribution to the preferred stockholders. Just what this will amount to is very difficult to say, but Mr. T. W. Maclary, treasurer of the company, is hopeful that it may amount to at least 10 per cent. of the par value of the preferred stock, or $1 per share. The common stock is not entitled to participate until the preferred stock receives its par of $10.

Taxi Service Company of Phila. The Quaker City Cab Company was incorporated in New Jersey in 1893 with a capital stock of $100,000, par value $50. On May 18, 1909, the Taxi Service Company was incorporated in New Jersey as a holding company for the Quaker City Cab Company. About 1922 they combined the holding company with the operating company, and formed one company under the name of the Quaker City Cab Company. About a year and a half ago the Quaker City Cab Company went into the hands of a receiver. The receiver of this company informs us that he was trustee in bankruptcy of the Quaker City Cab Company, but never heard of the Taxi Service Company, and inasmuch as the assets of the Quaker Company were not sufficient to pay anything to the general creditors, he presumes that the stock of the Taxi Service Company is without value.

Terminal City Company, Ltd., The. Chartered by the Parliament of Nova Scotia in 1888 for the purpose of founding and fostering the growth of a large commercial, manufacturing and fishing centre near the eastern terminus of the Strait of Canso, a body of water of great depth, which connects the Gulf of St. Lawrence with the Atlantic Ocean and separates the Island of Cape Breton from the mainland of Nova Scotia. This company seemed to present great promise, its railroad connections were to be completed the following November, and during the month according to the scheme laid down, the first departure was to take place of a regular steamship line for Europe which trip was expected to be made in three days or less. The capital stock of the company was $5,000,000 divided into 500,000 shares of $10 each. Resources of the company as reported in their statement January, 1890, were as follows: 3,046 acres of land in Nova Scotia, with more than six miles of water front on one of the best harbors on the Atlantic Coast; 1,000 acres of the same, laid out into 5,000 building lots, streets and parks; 1,522 acres of land on Cape Breton Island; 500 acres of same, set aside for building purposes. A coal mine containing 5 seams of coal, the seams running direct to the water's edge, one three foot, two, four foot seams, one seven, and one eleven foot seams, fully developed and ready for mining coal. 250,007 shares of treasury stock to be sold to develop the property. Liabilities: Capital stock 500,000 shares, $10 each, $5,000,000. The company reported also that it was free from all incumbrances, no debits and had sufficient money to begin preliminary work. The stock is non-assessable. Officers: George B. Nichols, president; Col. Charles H. Lewis, vice president; Orlando P. Shannon, treasurer; Hiram M. Pearl, clerk. Directors: George B. Nichols, Joel F. Anisden, William H. Allen, Col. Charles H. Lewis, William Butterfield, Henry Wood and Hiram M. Pearl. Charles Spear, general superintendent. Company's counsel in the United States, S. K. Hamilton, Boston, Massachusetts. Company's counsel in Canada, J. A. Gemmil, Barrister at Law, Ottowa. How far this business progressed we cannot say, other than it was operating in 1890 and was reported out of business about 1903 and stock found valueless.

Thomson, John, Press & Manufacturing Company. Incorporated New Jersey. Officers: John Thomson, president; J. E. Thomson, vice-president; K. D. Pettit, treasurer; R. M. Thomson, secretary. Directors: The above and H. B. Newman. This company got into financial difficulties during 1919-1920 and it was necessary to place its affairs in the hands of a receiver in equity about April, 1920. The company was then in good condition although curtailed as to credits, having some $1,500,000 worth of orders on hand but the banks declined to carry it ahead. The receivership was lifted some four months later. However, the banks assumed control of the directorate and so hampered the executives that they decided to abandon the venture entirely, went into default under S. W. Strauss Company underlying mortgage and sold out under foreclosure approximately in July, 1923. The control of the property was afterwards bought in by the American Type Founders Company, who now control it. The foreclosure created a deficiency judgment against the endorsers of the mortgage bond, and all other holders of the funded debt and the common stock of the corporation was wiped out. The New Jersey charter of the company was forfeited January 22, 1925.

Tobin Whichway Signal Company. Incorporated under the laws of New York State in 1909 with a capital stock of $300,000 divided into $50,000 preferred and $250,000 common, both with a par value of $100 each share. This company manufactured auto signal lamps and in August and September of 1913 it was reported in the press that company was having general business troubles. The officers were last reported according to our records in 1913 to be: John W. Tobin, president; C. Ames Brooks, secretary; with W. and F. S. Tobin, C. Ames Brooks, Alexander S. Parter, Jr., as directors. Company maintained an office at 30 Pine Street, New York City at that time. It was later reported in 1914 and 1915 that the office was at 48 Walker Street, but we could not locate the company at that address in 1915. There are no sales or quotations in this stock for many years. The former secretary of the company, a lawyer located in New York City, advises that the company went dead years ago and that there is no value to the stock.

Toledo, Delphos & Burlington Railroad. Organized May, 1879. We have received the following report from the New York, Chicago & St. Louis Railroad Company: "Consultation of their company records on file with the Interstate Commerce Commission indicates that there were several companies of that name incorporated between the years 1879 and 1881. The last company, however, of that name, i. e., Toledo, Delphos & Burlington Railroad, was consolidated with another company to form the Toledo, Cincinnati & St. Louis Railroad Company. Articles of incorporation were filed February 25, 1882, at Indianapolis, Indiana. This latter company became financially involved, and its properties were sold under foreclosure on June 28, 1884 and December 30, 1885. Various portions of the property are now owned by the Baltimore & Ohio, Pennsylvania Railroad, Cincinnati Northern and Nickel Plate. Because of the fact that the property was disposed of at a foreclosure sale, the securities of the Toledo, Delphos & Burlington Railroad are not a lien upon the physical property, and while they have no knowledge of the disposition of the proceeds of the sale, they are inclined to believe that the securities have no present value." A while ago there was a very small market for the bonds of the Toledo, Delphos & Burlington Railroad but at present they are without value.

This company was a consolidation, July 1, 1865, of the Toledo and Wabash Railway, the Great Western Railway, the Quincy & Toledo Railroad and the Illinois and Southern Iowa Railroad, and by purchase in 1870 of the Decatur & East St. Louis Railroad. In February and May, 1875, this company defaulted on the interest of the various classes of its bonds, and the road was placed in the hands of the receiver. In January, 1877, a reorganization was effected by the purchasers of the road and property under the title of the Wabash Railway Company, and on the first of January, 1877, the Receiver turned over the road and the property to the Wabash Railway. This company proposed to the bondholders a scheme of funding interest as follows: Holders of 1st mortgage bonds of Toledo and Illinois, Lake Erie, Wabash & St. Louis, Great Western, and Southern Iowa Railroads, to deposit the 4 past due coupons to February 1, 1877. Decatur and East St. Louis Railroad to deposit 5 past due coupons to August 1, 1877. Quincy & Toledo Railroad 5 coupons to November 1, 1877. Second Mortgage bonds of Toledo & Wabash, Wabash & Western, and Great Western Railroads, to deposit 5 coupons to November 1, 1877, and to assent to extension of bonds to 1893, and of Toledo, Wabash & Western consolidated bonds coupons of August 1, 1877, and November 1, 1878, to be paid and unpaid coupons to be deposited. Payments maturing in May, 1877, to be made in August and subsequently as coupons fall due. The unpaid coupons to be funded in scrip certificates bearing interest and exchangeable for 7 per cent. bonds of $500 or $1,000 maturing in 1907 and to be called Funded Debt Bonds. The reorganization that took place in 1877 provided that the Toledo, Wabash & Western Railway Company stockholders pay an assessment of $10 a share and the property was subsequently sold under foreclosure and all equity for non-depositing stockholders wiped out. The stock is of no value.

Tomadelli Electronic Corporation. Incorporated Delaware, 1921. Capital, $1,500,000. Classes A and B common stock. Factory in Harrison, N. J., to manufacture lamps that would burn for years with very small expense, by using energy from the atmosphere. Remarks: Tomadelli claimed to have had such a light in South America, but it was destroyed by lightning. Application for an injunction made by Attorney General in February, 1924, upon complaint of the Better Business Bureau. The State, however, lost its fight to enjoin the corporation from further sale of stock because the Attorney General failed to prove that the corporation had engaged in fraudlent practices in its sale of stock in a "bottled sunshine" lamp. The experts for the State admitted that they had never seen Tomadelli's apparatus or witnessed an experiment of any kind. The last quotations we can find for the Class B stock is on March 9, 1926, when there was an offer of 52 shares at 1, by Steelman & Birkins, New York City. The attorneys for this company advise that they have not had any contact with this company since the termination of their services in the injunction matter in 1924. They doubt, however, that the company is still in existence.

This company was incorporated under the laws of Maine and it is stated on the face of the debenture certificate that interest is payable at the State St. Trust Co. of Boston, Massachusetts. The April and October, 1914 coupons are attached to the bonds. We have written to the State St. Trust Co. asking them what interest has been paid on these bonds and what provision has been made for the payment of principal and they have answered by saying that they must refer us to Mr. James L. Putnam, 48 Wall St., New York City, for any definite information in regard to this debenture issue. We of course wrote to Mr. Putnam and subsequently had one of our investigators call at his office, 48 Wall St., where we were informed that he is very seldom at his office and spends most of his time abroad. Company was liquidated some years

Owned about 1150 acres of mineral land located in Rowan and Carbarrus Counties, North Carolina, at Gold Hill, about 15 miles from Salisbury. Had authorized and outstanding $2,500,000 capital stock, shares $5 par. Shares listed on the New York Curb. President was Louis M. Ogden. Had an office at 18 Broadway. Directors in May, 1913, reported that there were several judgments against the company and asked for a subscription of 10c a share. Stockholders failed to respond and in July, 1913, the property was sold at sheriff's sale to the Security Transfer & Registrar Co. for $7,100 in satisfaction of a judgment for wages and labor due. Was boomed extensively by the failed firm of Sig. H. Rosenblatt & Co. and was considered to have prospects if operated as a mine instead of a stock-jobbing proposition. In 1913 the charter of the company was forfeited. There is no market for the stock at the present time.

Union Tarction Company of Kansas. At the present time this company is being operated under a bondholder's agreement. The chairman of the committee, a Mr. Stamm, advises us as follows: Messrs. Samuel K. Phillips & Company, located in the Packard Building at Philadelphia, have dealt somewhat in these bonds and have given the following quotations on the bonds: bid 5, ask 10. He further states that the future of the company is on the "knees of the gods." The property is now being operated and has been for two years by a receiver who has not yet been able to get the proposition to a point that will enable the committee to form a definite judgment as to the proper course to pursue, but are hopeful that some light will come through before very long. The company operates an interurban line in southeastern Kansas. It came to grief through the loss of passenger business and this business continues to fall off practically from month to month, and the freight business, in which some hope has been placed, does no more, if so much, as hold its own. The receiver also informs us that no definite arrangements have been made, but says it would seem advisable to retain possession of the bonds for some time at least.

Union and Titusville Railroad. As of January 1, 1871, this company reported a line of road from Union to Titusville, Pennsylvania, a distance of 25 miles, siding and other tracks, 1 mile, gauge 6 feet, rail 56 pounds to yard. The balance sheet showed capital stock, 10,000 shares, $500,000; First Mortgage 7 per cent. bonds dated 1870, due July 2, 1890, interest January and July $500,000; total stock and bonds $1,000,000, which represented the cost of road and equipment. The officers were: W. H. Abbott, president; D. H. Cady, vice-president and D. T. Casement, secretary and treasurer; and the office at Titusville, Crawford County, Penna. About 1871 the Union and Titusville Railroad was leased to the Oil Creek and Alleghany Valley Railroad at a reported rental of $52,500.00 a year. On May 1, 1874, the Oil Creek & Alleghany Valley Railroad defaulted interest on its consolidated bonds, was placed in the hands of a receiver and on December 29, 1875, was sold at foreclosure. Early in 1876 the Oil Creek & Alleghany Valley Railroad was reorganized as the Pittsburgh, Titusville & Buffalo Railroad Company, the new company operating as a part of the Alleghany Valley Railroad. (So far the Union and Titusville Railroad First Mortgage 7 per cent. bonds due July 2, 1890, remained undisturbed). On February 16, 1880, the Pittsburgh, Titusville and Buffalo Railroad consolidated with the Buffalo, Chautagua Lake & Pittsburgh Railroad and on January 20, 1881, both of these roads were merged into the Buffalo, Pittsburgh & Western Railroad. On February 14, 1883, the Buffalo, Pittsburgh & Western Railroad was absorbed by the Buffalo, New York and Philadelphia Railroad Company. (Up to this point the Union and Titusville Railroad First Mortgage 7 per cent. bonds due July 2, 1890, remained undisturbed). In January, 1885, interest of 3 per cent. was paid on the Union and Titusville Railroad First Mortgage 7 per cent. bonds due January 2, 1890; no interest thereafter. Under date of February 15, 1886, the Buffalo, New York and Philadelphia Railroad was reorganized and the plan of reorganization provided a new company be formed as the Western New York and Pennsylvania Railroad. The Western New York and Pennsylvania Railroad under the plan of reorganization dated February 15, 1886, issued Second Mortgage bonds dated December 1, 1887. due October 1, 1927, with interest April and October at the rate of 3 per cent. in cash or scrip for first five years, 3 per cent. in cash for next five years, and 4 per cent. thereafter in cash, liable to increase up to 7 per cent. if earned. In the plan of reorganization dated February 15, 1886, the $500,000 Union and Titusville Railroad First Mortgage 7 per cent. bonds due July 2, 1890, were to receive $375,000 of the Western New York and Pennsylvania Railroad Second Mortgage bonds dated December, 1887, due October 1, 1927, being 75 per cent. of the face value of the former bonds. The option of paying in scrip for the first five years the interest on the Western New York and Pennsylvania Railroad, Second Mortgage bonds dated December 1, 1887, due October 1, 1927, expired after October 1, 1892, and the cash payment due April 1, 1893, not being paid, a receiver was appointed. On February 5, 1895, the Western New York and Pennsylvania Railroad was sold under foreclosure of the Second Mortgage and under plan of reorganization dated December 1, 1893, the Western New York and Pennsylvania Railroad Second Mortgage bondholders received 50 per cent. in new general mortgage bonds, 25 per cent. in new Income bonds, 25 per cent. in new stock of the new reorganized company, known as the Western New York and Pennsylvania Railway Company, which is at present an operating company and its bonds enjoy an active market. Going back to the Union and Titusville Railroad Company First Mortgage 7 per cent. bonds, due July 2, 1890, we understand the Tenth National Bank of New York City was the Trustee. The Tenth National Bank of New York City went out of business through liquidation in December, 1877. Under the reorganization of February 15, 1886, the Union and Titusville Railroad First Mortgage bondholders were requested to deposit their bonds with the following depositories: Bank of New York, National Banking Association, now Bank of New York & Trust Company, 76 William St., New York City, or Fidelity Insurance Trust & Safe Deposit Company of Philadelphia, which became the Fidelity Trust Company in 1902, and is now the Fidelity Philadelphia Trust Co. of Philadelphia, Pa. The Reorganization Committee under the plan of February 15, 1886, was: Carl Schurz, Clarence H. Clark, Charles M. Fry, Isaac N. Seligman, J. H. Adrian Tromp. The Pennsylvania R. R. Co., which now operates this property, advises that due to the fact that the bonds were not deposited under the plan of reorganization they can not now share in such reorganization. This fact is undoubtedly true and in our opinion the only possible value depends upon the decree or foreclosure value.

United Bankers Corporation, The. This company was incorporated under the laws of New York State on November 18, 1910, with a capital stock of $3,000,000, which a month later was advanced to $3,500,000. Was organized to purchase, hold and dispose of stocks, bonds and other evidence of indebtedness. The directors at the time of organization were Frank W. Wheeler, James H. Somer, George H. Sweet and S. Francis Walsh of Detroit and Frederick W. Park of New York City and office reported at No. 120 Broadway, which was the office of Frederick W. Park, a lawyer living in Cranford, New Jersey. The company sent several letters to New York bankers in which they offered the following propositions: "We hold a block of stock in a newly organized western bank and desire to procure a four months loan, using that bank stock as a collateral thereto. In addition to which we will arange with the bank, whose stock issued as collateral to open an account with your bank and keep on deposit with an amount equal to the amount of said loan. The president and cashier of said bank will also indorse note if required. A personal interview is desired if the proposition interests you." This did not meet with favor in the New York banks and it was suspected that the company was endeavoring to acquire control of a chain of banks by borrowing on the stocks of one bank to buy stock in another. It was reported that George E. Cathcart resigned as director in the early part of 1911 and also that Mr. Park resigned as director after learning that these letters had been mailed from Detroit to banks here but that he remained a counsel for company seeking loan. In 1911 company moved to Detroit. There has been no information reported since and we have not located any quotations of this stock.

United Oil of Mexico. The United Oil Company of Mexico was incorporated under the laws of Arizona in March, 1911, with a capital stock of $3,000,000, par value $1. Company was reported to have had 4,201 acres in Tampico, Mexico. We understand that this company merged with the Seaboard Oil & Transit Company which was organized in California in 1913 and its officers received a jail sentence for promoting it. The Seaboard Oil & Transit Company, it was reported, was nothing other than a fraud stock promoting scheme, and inasmuch as the United Oil Company of Mexico was merged with the Seaboard Oil & Transit Company we believe the shares to be valueless. The last known officers of the United Oil of Mexico were: A. C. Nichols, president; J. R. Riggins, secretary, with offices in the Title Insurance Building, Los Angeles, California.

United States Automatic Machine Company. This company formally had an office at 15 Beacon St., Boston, Mass. Report of N. S. Iwestor dated April 28, 1906, as follows: "We have no confidence in this company believing it to be no more than a stock jobbing scheme. They sold machines that were said to be of an old type, being made up largely of expired patents on other machines, so they were told. The company did not file any returns to the Massachusetts Corporation Commission since 1903. The latter reported on December 29, 1905, that the corporation has ceased to transact business and wishes to be excused from filing its return until such time as it may resume. As we do not find any trace of the company or sales of quotations of its stock for a number of years, we believe the company is out of existence and the stock worthless."

United States Steamship Company. This company was incorporated in Maine, December, 1913. Present name adopted December 27, 1915. Authorized capital stock, $25,000,000. Par value $10. In June, 1920, the United States Ship Corporation was incorporated in Maine with $40,000,000 for the purpose of merging the United States Steamship Company and the United States Transport Company, Inc. The merger plan called for an exchange of stock of the new corporation for shares of the two companies on the basis of four shares of the new corporation for each five shares held in either of the old companies. This offer was to hold good until March 1, 1921. 24 associates in the affairs of the United States Steamship Company were indicted by the United States Grand Jury, April 27, 1922, for alleged use of the mails to defraud prospective investors in the capital stock of the company. On July 11, 1922, the Supreme Court of Augusta, Maine, appointed Burleigh Martin and William C. Gardiner receivers for the company, following which a stockholders protective committee was formed made up of the following: A. C. Hirdman, H. S. Harding, B. W. Burdick. Stockholders were requested under deposit agreement of April 1, 1924, to pay in an assessment of five cents per share in order to defray the expenses of the committee. Mr. Deacon Murphy, 26 Liberty Street, New York City, is the secretary of the stockholders committee and he advises that the value of the stock depends upon the outcome of certain litigations now being conducted. He has reference to a well known Morse trial and other matters pending before the United States Government. It is impossible to tell what the outcome of the litigation is going to be. There are no sales or quotations reported of the stock and while it will be most difficult to sell the shares at any price, it is just possible that something may be realized by the stockholders upon the outcome of the litigation. Since the offer of the exchange of the United States Steamship Company shares only held good until March 1, 1921, we submit these shares as valueless at this time.

United States Steel Company. Incorporated September 5, 1899, under the laws of West Virginia for the purpose of acquiring patents of Andres G. Lundin, covering the conversion by melting of ordinary steel scrap into steel. The company was incorporated with an authorized capital stock of $3,000,000, par $5, and paid regular dividends at the rate of 12 per cent. per annum for some years. Company had an office at 145-147 Oliver Street, Boston, Massachusetts. On June 21, 1904, a notice was sent to the bondholders of the United States Steel Company stating that at the sale made under the mortgage from the United States Steel Company to the International Trust Company of Boston, as trustee, the property was bought by the International Trust Company for the benefit of the bondholders at $50,000. The plan of reorganization provided for a new company with a capitalization of $500,000, par $100 each, divided into $250,000 6 per cent. preferred and $250,000 common, the bondholders to receive for each $100 bond, $100 in preferred and $100 in common stock, the stockholders of the old corporation to be given the privilege of subscribing within 30 days from May 31, 1904 $75,000 cash for which they were to receive $100,000 in preferred and $100,000 in common stock. For many years the United States Steel Company of West Virginia has been considered dead and obsolete and the stock of no value. We are unable to locate data to show whether or not the reorganization of 1904 was actually carried out.

Universal Lock-Tip Company. Organized under the General Laws of the Commonwealth of Massachusetts on January 23, 1924, and as of March 18, 1927, reported the following financial condition:

Assets	
Claims	$2,000.00
Good-will	20,400.00
Profit & Loss deficit	2,700.00
Total	$25,100.00
Liabilities	
Capital stock	$25,000.00
Sub. rec'd for stock	100.00
Total	$25,100.00

The company has an authorized capital stock of $150,000, paid in $25,000. The officers and directors are as follows: William S. Gay, pres. and dir.; Helen Gay, clerk and dir.; Katherine Gay, dir.; and the office of the company is at 168 Dartmouth Street, Boston, Mass. The capital stock is not actually quoted or traded in and we do not find any public quotations reported. Morton Lachenbruch & Company, 42 Broadway, New York City, have in the past been interested in the market for the stock. The financial statement as of March 18, 1927, is certainly poor, there being practically no assets whatever and on the basis of this statement we do not see how the capital stock could have any value whatever.

Universal Silvers Company, The. Company was incorporated under the laws of Nevada around 1921 with a capital stock of 10,000,000 shares, 5,025,874 outstanding, assessable. Two assessments of 1 cent have been levied—No. 2 for the purpose of taking up Arizona Silvers $200,000 bond issue. Universal Silvers Company was said to have controlling interest in Silver Reef, Arizona Extension Consolidated Silver and Consolidated Silvers, Inc., and also a stock interest in the Arizona Silver Mines and in the Arizona Annex. Company's properties reported were The Township group of six claims in the Unionville District, Pershing County, east of the Arizona Extension claims and also claims in the Sierra district, 20 miles from Unionville, which will eventually, it was intended, be operated by its subsidiary, the Sierra Silver Mines Corporation. This company was the "final Silver" promotion of the Charles E. Van Riper, the brokerage house responsible for Arizona Silver Reef, Consolidated Silver, etc. It was reported that in the first eighteen months of its existence, the total receipts were $50,000; expenses were, organization $10,000; operating $20,000; investment in Sierra district $6,000, in Arizona Silver $15,000—all in "round numbers." The promoters seemed disinclined to give much information regarding these companies. The president of the Universal Silvers was Edward S. Van Dyck, Unionville, also president of the Arizona Silver Mines and the Arizona Extension Silver Mines; other officers connected with the two latter companies were F. W. Lockwood, vice-president and superintendent; C. D. Olney, secretary; M. E. Pratt, chief engineer. The Universal Silvers Company was reported dead in 1922 or thereabouts, although it was virtually absorbed by the Consolidated Mining and Refining Company which was a reorganization of the Consolidated Silvers, Inc. The Consolidated Mining & Refining Company was organized some time in 1922 in Nevada, with a capital stock of $500,000, par 1 cent, 20,000,000 shares outstanding. Transfer agent was A. E. Coupal, Room 614, 79 Milk Street, Boston, Massachusetts. Shareholders of the Consolidated Silvers, Inc., and of the Sinclair Silvers Consolidated which were affiliated, but apparently for promotion purposes only, received 10 shares of Consolidated Mining & Refining Company for each share of old company held. The reason given being that whereas Consolidated Silvers offered the shares to the public at 3 cents a share, Charles H. Cresser & Company, which was promoting the stock in New York in 1920, sold many shares for 25 cents each. The Consolidated Mining & Refining Company also absorbed the other silvers, e.g., Arizona Silver Mines, Arizona Extension Silver Mines Company, Silver Reef Mining Company, Universal Silver Company and Sierra Silver Mines Corporation, and took their properties over. All these companies were affiliated in some way and were promoted by the same group. The promoters were arrested in 1920 for alleged fraud in these promotions and in April, 1920, the brokers who were active in marketing shares of these allied groups were arrested and fined $1,000 each for illegally advertising stocks under the laws of Massachusetts. In view of the fact that the Universal Silvers Company was reported dead before being absorbed by the Consolidated Mining and Refining Company and its connection with fraudulent promoters, we submit the stock valueless as of September 9, 1927.

Universal Silvers, Incorporated. Claims to own mineral lands located in the Buena Vista district, Pershing County, Nevada. An old property which is said to have had considerable development and production. Benjamin Spalding, but never owned a plant or put tires on the market. Universal Tire Company took over the patents of the International. These patents were Universal's only assets. The company is now dormant. One of the men connected with the company says it was a cumbersome $2,000,000 corporation, and $1,300,000 of the treasury stock was issued. He claims that he made tests and experiments with the patents and when he found they were useless, asked to have his name taken from the directorate. The company is defunct, as state taxes have not been paid for many years and there are no assets belonging to the company except the patents. The company never sold any tires and its only assets are patents.

Valier-Montana Land & Water Company. Organized under the laws of Montana in 1911, as a reorganization of the Conrad Land & Water Company, which was one of the promotions of Trowbridge & Niver Company. This irrigation district was located in Teton County, Montana, about 69 miles from Great Falls. The authorized capital stock consisted of $1,000,000 6 per cent. non-cumulative preferred and $1,500,000 common and there was a funded debt of $1,309,000 first mortgage A 6's, $969,300 first mortgage B 6's, $365,000 five year 6 per cent. notes, $112,698 6 per cent. scrip. On January 1, 1913, interest due on the first mortgage "A" and "B" and the five-year notes was defaulted. The following protective committee was formed: Alexander J. Hemphill, Frank R. Ford, Oscar L. Gubelman, J. Horace Harding, Austin McLanahan. This committee drew up a plan of reorganization dated April 12, 1913, which provided for the organization of a new company to be called the Montana Irrigation Company with an authorized capitalization as follows: $1,000,000 first ten year 6's, $2,000,000 second fifteen year 6's cumulative income bonds, $1,000,000 preferred stock, $2,500,000 common stock. Depositors of Valier-Montana Land & Water Company first mortgage "A" 6 per cent. bonds were requested to subscribe at 90 for new first ten year 6's to the extent of 22½ per cent. of their holdings, and received in addition or as a bonus $400 par value new common stock for each $100 par value of such new bonds subscribed for and also new second fifteen year 6 per cent. cumulative income bonds to the amount of 110 per cent. of the par value of old "A" bonds. Depositors of Valier-Montana Land and Water Company first mortgage "B" bonds were allowed to subscribe at 90 for new first ten year 6's to the extent of 22½ per cent. of their holdings, and received in addition or as a bonus $400 par value new common for each $100 par value of such new bonds subscribed for and new preferred stock equal to the principal of the series "B" bonds. Depositors of Valier-Montana Land & Water Company five year 6 per cent. notes upon payment of their subscription to new first mortgage ten year 6's were entitled to receive in addition to the common stock bonus, new second fifteen year 6 per cent. cumulative income bonds to the amount of 105 per cent. of the principal of such notes. This plan of reorganization became effective and the property was acquired by the bondholders' committee under foreclosure sale held June 13, 1914. There is no market for the old securities, the only public sale being at auction on February 21, 1914, in New York City, when $191,000 par of the first mortgage "A" 6's sold for $10,000 for the lot. The Guaranty Trust Company of New York City was the depository for all of the securities under the reorganization.

Property was located on Vera Cruz Mountain in Nogal District, Lincoln County, New Mexico. Reported that a large amount of money was expended in development and equipment. Ore was said to carry $4.00 per ton and was low grade, free milling. Mine was closed down some three years ago and is reported to be still idle. Stock is reported to have no known value.

Verda Consolidated Mining Company, Laramie, Wyoming. Wyoming charter forfeited for non-payment of taxes July 19, 1927.

Verde Apex Copper Mining Company. Organized under laws of Arizona in 1900. Capital stock $3,000,000, par $1. Property: Six claims, area circa 90 acres in Mescal Gulch, about one mile south of Jerome, Yavapai County, Arizona. Officer: Charles B. Lutz, president, Bloomsburg, Pennsylvania. Mine office: Jerome, Yavapai County, Arizona. We understand this property was sold in 1906 by sheriff and redeemed by the president for the benefit of shareholders. This company's property has not been operated for some time as it has been out of funds, the taxes on the property being paid by the president of the company out of his own pocket. At the present time he is endeavoring to find capital, so that he can turn over the control of the company. Since 1904 mine has been idle and we do not find any transactions of this stock.

Verde Combination Copper Company. Incorporated Arizona on April 24, 1916 with a capital stock of $1,000,000; 1,600,000 issued; par value 50 cents; listed on the Boston Curb. Transfer agent: Union Bank & Trust Company, El Paso, Texas. Office: First National Bank Bldg., El Paso, Texas. Officers: J. S. Dyer, president; David Morgan, vice-president; J. A. Callaghan, secretary; Jas. F. Primm, treasurer. Property: 550 acres in Yavapai County, Verde district, includes the Midnight claim. In 1924, judgment was rendered in favor of the company in the suit brought against the Jerome Central Mining Company to quiet the title of the Midnight claim. In February, 1926, the assets of the company were sold at a sheriff's sale to satisfy a judgment of $4,422. Company has failed to pay state taxes since 1925 and is therefore legally dead.

Verde Grande Copper Company. Incorporated in the fall of 1906 in Arizona with an authorized capital stock of $8,000,000, par value $1. Officers: E. L. Zimmerman, president and B. D. Wood, secretary, both of St. Louis, Missouri. We understand $3,000,000 in shares was given to J. C. Scott, the original owner of the property, as part of the purchase price, and $1,500,000 placed in the treasury. The remainder was to be sold for develop-

ment purposes. Property consisted of ten lode claims, totaling 120 acres, in the Jerome Mining District, Yavapai County, Arizona. After a tunnel had been sunk fifty feet a great advertising plan was started. Very little development work was done after the campaign ended and in 1909 the property was sold. The securities of this company have been indexed as obsolete for a number of years in reliable mining books. Charter revoked by final decree of the Arizona Corporation Commission, as a court of record, for failure to pay annual registration and report filing fees on July 28, 1927. President, J. C. Scott, Jerome, Arizona; secretary, F. E. Smith, Jerome, Arizona.

Verde King Copper Company. Incorporated under the laws of Arizona with $1,000,000 capital stock, shares $1 par. Owned 20 mineral claims located near Jerome, Yavapai County, Arizona. Office was at Los Angeles, California. Lands were considered well located but were allowed by the management to remain idle. Reported dead by the Copper Handbook.

Verde Mining & Milling Company. Owned 80 acres of mineral land located at Battle, Carbon County, Wyoming. Had fair development and equipment. Office was at Omaha, Nebraska. Idle several years and reported dead by the Copper Handbook in 1908.

Verde Queen Copper Company of Arizona. Owned 28 mineral claims, with a 40-ton smelter, located near Jerome, Yavapai County, Arizona. Was succeeded in 1906 by the Jerome Verde Copper Company.

Verity Mfg. Co., Lake Odessa, Michigan. Dissolution filed February 10, 1906.

Verland Oil & Gas Corporation. This company was taken over by the Southern States Oil Corporation in August, 1922. The Southern States Oil is controlled by the Middle States Oil Company, at 170 Broadway, N. Y. C. The last named company and its subsidiaries is in receivership at the present time, Joseph Glass and Joseph P. Tumulty are the Receivers. They advise us that the Southern States Oil Corporation, sold the Verland Oil & Gas Company in 1927 and therefore have no further connection with it. There are no quotations of this stock and we believe that after so many changes of ownership, the stock would be valueless.

Vermont Central Railroad, The. The Vermont Central Railroad was chartered October 1, 1843, to build a line of railroad from Windsor to Burlington, Vermont, which was completed and opened throughout its entire length on the 31st of December, 1849. In 1851 the company made an issue of $2,000,000 1st Mortgage Bonds and in 1852, $1,500,000 second mortgage bonds. Shortly after the latter issue the company becoming embarrassed, its roads and property were placed in the hands of the trustees of the 1st mortgage bonds. On the 1st of November, 1854, default was made in the payment of Vermont and Canada Railroad rental and on the 1st of December following in payment of Vermont Central Bond Interest. In May, 1855, Receivers were appointed and operated the road until May, 1856, when overdue rental having been liquidated, the road was surrendered to the trustees who were then given the powers of receivers. On the second of November, 1872, the Central Vermont Railroad Company, was organized, and took charge of the road as receiver, operating them as such from July, 1873, until January 17, 1884, when the receivership was terminated. In April, 1883, the Consolidated Railroad Company of Vermont was organized to carry out a plan, which had been proposed for ending the litigation, and settling with all classes of security holders. This plan provided for an issue of 7,500 shares of $100 each, of preferred capital stock in exchange for the first and second mortgage bonds of the Vermont Central Railroad Company, at the rate of 20 per cent. of the face value of the former, and 10 per cent. of the face value of the latter, with out over-due interest. No provisions seem to have been made for the capital stock of the company and since the bondholders received, capital stock in exchange for their bonds, it is not likely that the stockholders received anything. Under provisions of this plan the reorganization was completed, and the property taken out of the hands of the receiver, January 17, 1884, the courts retaining control until July 1, 1884, when it was turned over to the Consolidated Railroad Company of Vermont. On the same day, the company executed a lease of the property for 99 years to the Central Vermont Railroad Company, a new company orgainzed for that purpose. The affairs of the Vermont Central Railroad were conducted by a board of trustees and managers appointed by the Chancery Court of Vermont.

Wabash Consolidated Mining Company. Incorporated under the laws of Arizona in 1902, as a consolidation of the Summit Gold Mining Company, Wabash Gold Mining Company, Sunnyside Gold Mining Company and the Deerhorn Mining Company. All these were reported to be extremely speculative companies at the time—floated during the boom days of Cripple Creek's questionable promoters. The consolidated company was supposed to be in better hands after this arrangement and it was planned that they were to do development work on the lost parts of the properties of the old companies. Stock of the constituent companies was exchangeable for stock in the consolidated company. But like many others they have failed to make any reports since the time of incorporation and on August 18, 1927, the charter of the company expired by limitation. No trace can be found for many years. There have been no sales or quotations for several years.

Wabash Gas Co. New Jersey charter revoked for non-payment of annual registration fee for two years January 5, 1909.

Wabash Iron Company. Owned a plant at Terre Haute, Ind., engaged in the manufacture of iron and steel products. Was one of the companies acquired and consolidated to form the Republic Iron & Steel Company in May, 1899.

Wabash Lumber & Shingle Company. Was engaged in the lumber business with an office at Olympia, Washington. Became bankrupt as a result of the failure of the United States National Bank of Centralia, Washington. Receiver was appointed and in January, 1916, the property was sold for $110,000.

Wabash Mining Company. Owned 16 mineral claims located at Letcher, Fresno County, California. Had slight development. Office was at Los Angeles. Was idle several years and reported dead in 1908.

Wabash Railroad Company. Temporary Certificate of Deposit—Preferred stock. The Wabash Railroad was foreclosed and reorganized in 1915 to form the Wabash Railway. The plan of reorganization provided for the deposit of the common and preferred stock of The Wabash Railroad Company and the payment of an assessment of $30.00 per share on each class of stock, for which there were to be issued $50.00 of new preferred stock A and $50.00 of new common stock for each share of the old preferred stock, and $50.00 of new preferred stock A and $45.00 of new common stock for each share of the old common stock. As practically all of the stockholders of the old company did not pay the required assessment, the burden of paying off the Receivers' indebtedness was assumed by the holders of the foreclosing Refunding and Extensions Mortgage Bonds of the old company, who paid an assessment of over $650.00 for each $1,000.00 bond held. All of the reorganization matters were closed a number of years ago, and therefore those certificates which were not deposited and an assessment paid, are of no value at the present time.

Wake Up Jim Gold Mining Company. Company was promoted in 1906 and claimed property at Murray, Idaho. Company received a great deal of unpleasant newspaper notoriety at one time, it being reported in 1910 that $150,000 was a conservative estimate of the money put up by New York doctors, lawyers, merchants and clerks in the promotion. Most of the investors were small salaried people in the employ of the H. B. Claflin wholesale dry goods company and the Nathaniel Fisher Boot & Shoe Company. The promoter who appeared suddenly in New York disposed of $150,000 worth of shares and then mysteriously faded away. This all happened in 1906-1910 and all the shareholders ever received was a large certificate with a picture of a miner picking up large hunks of gold from the ground, and at the bottom of the document was a fine large gold seal. At the time it was stated that the stockholders were also left with the memory of a fat, jolly man with a merry laugh and a wonderful flow of conversation. This was the affable promoter. The New York stockholders held their last meeting about 1908-1909 after which most of them gave up hope. The officers in 1910 were: Carl A. Clemmans, president; B. B. Macdowell, secretary and treasurer. No further trace of the company can be found and in our opinion the stock is of no value.

Funded debt: $3,845,300 first mortgage S. F. gold 6's due March 1, 1917. Authorized $7,000,000; issued $5,090,000, of which $1,144,700 have been retired and $100,000 held in treasury. The company is in default in respect to interest due March 1, 1925, and also as to sinking fund payments. The Colonial Trust Company, trustee, foreclosed on this mortgage and receivers were appointed on December 31, 1925. Property was offered for sale at an upset bid of $750,000 on September 8 and 9 at Steubenville, Ohio, and Brazil, Indiana, but no sufficient bid was received. Offered subsequently on October 5 and 6 at a reduced upset bid of $600,000 but again no sufficient bid was received. On November 22 and 23 the properties were again offered without an upset bid and in subsequent sales held December 15, January 31, May 24 and July 17 most of the equipment and personal property of the company was sold but the coal and coal lands were withdrawn temporarily by the court from sale owing to the condition of the market for coal. Some few parcels of surface lands have also been sold and the coal will be again offered for sale as soon as the market will justify. It is not anticipated that the properties will bring more than 10 or 15 per cent. of the mortgage indebtedness. Under these conditions there will be nothing whatever for unscured creditors or for the stockholders of the company. Rose & Eichenauer, counsel for the Colonial Trust Company, trustee, Oliver Building, Pittsburgh, Pennsylvania, will be glad to furnish you additional information pertaining to developments of sales, etc., should you care to correspond with them regarding the matter.

Wellington Copper Mining Company. Par $1: Claimed land at Cutler, New Mexico, which proved unmineralized. No value found for stock in 1920 for inheritance tax and we submit them as valueless at the present time.

Wellington Development Company. Property and operations not reported. Capital stock $3,000,000. Was a stock selling scheme promoted by W. W. Degge.

Wellington Drilling Company. Incorporated under the laws of Texas. Was located at Wellington, Texas. Charter forfeited on July 2, 1916, for non-payment of taxes.

Wellington Goldfield Mining Company, The. Incorporated under the laws of Arizona in 1905 with a capitalization of $375,000, shares 25 cents par. In September, 1906, W. W. Degge was president and J. H. Horn, secretary. Arizona Corporation Commission advised in May, 1916, that company had failed since 1911. Advised in June, 1916, by O. A. Erdman of Denver, Colo., that the company had been defunct for years and that its stock was worthless.

Wellington Oil Company. Incorporated under the laws of Colorado on December 8, 1923, and filed its last annual reports on February 27, 1926, naming the following as officers and directors: President, D. K. Hickey, 1937 Washington St., Denver, Colorado; secretary-treasurer, M. B. Nelson, 1006 First Natl. Bank Bldg., Denver; vice-president, R. G. McFann, 1519 Monroe St., Denver, Colorado. Capital stock $200,000; par $.01. Mr. R. G. McFann advises us that the company is practically defunct and also that the stock is of no value whatever. At the time of the Fort Collins, Colorado, oil excitement, there were a number of independent companies formed to exploit acreage which was considered worthy of test; but it later developed that the Union Oil of California, held practically all of the acreage that was productive. The Wellington Oil Company did not finish its well, since work was abandoned when another independent test still closer to production was drilled down to the producing horizon without finding oil.

Wellington Petroleum Corporation. This company, according to our records was organized in Delaware, although the Secretary of State informs us that the Wellington Petroleum Corporation is not the title of a Delaware corporation. It is possible that it was organized in Delaware but not under the laws of that state and therefore not on the state records. A New York office was reported at 30 Broad St., but in 1923, it was said that further information was unobtainable regarding the company. No New York office has been reported thereafter to our knowledge. On May 30, 1925, 25,614 shares were sold at $30 the lot at auction. There are no further quotations reported on this stock as far as we know.

Wellington Realty Company. Property and operations not reported. Capital stock $500,000. Was a stock selling scheme promoted by W. W. Degge. Incorporated October 15, 1902. Authority revoked by Governor's proclamation of April 23, 1923, under Act No. 158 of 1923.

Wells Corporation. Incorporated under the laws of Massachusetts in March, 1923, to acquire the following: American Tap & Die Company of Greenfield, Massachusetts, the Frank O. Wells Company, Inc., Greenfield, Massachusetts, and the Williamsburg Manufacturing Company of Williamsburg, Massachusetts, for the manufacture of a complete line of small tools, including taps, dies, broaches, etc., together with high grade butcher cutlery. Capital stock authorized, $1,000,000 7 per cent. cumulative preferred, par $100 and 5,000 shares of no par value common stock. Bonded debt authorized and outstanding $200,000 first sinking fund 7½'s dated April 1, 1923, due April 1, 1938. Interest payable at the Bank of America, New York City or the Franklin County Trust Company, Greenfield, Massachusetts, trustee, secured by a first closed mortgage on the entire property of the company owned or to be acquired. The Wells Corporation defaulted in the bond inter-

est, and in 1925, was reported to be in the hands of a receiver. Subsequently the property was sold by the receiver to the Threadwell Tool Company. The Threadwell Tool Company offered its 7 per cent. income bonds, due June 1, 1945, in exchange for the Wells Corporation first 7½ per cent. bonds due 1938 on the basis of par for par. Under the reorganization dissenting Wells Corporation bondholders received $302.97 in cash for each $1,000 par value bond held. Holders of the Wells Corporation preferred and common stock received nothing under the reorganization. The Threadwell Tool Company 7 per cent. income bonds, due 1945, have not as yet paid any interest and as there have been no public or private sales reported we are unable to advise the market.

Office: Last reported office at 501 Fifth Avenue, N. Y. C. Corporation has been out of business entirely since 1921 and its charter rights abandoned. We have learned from one of the directors of the company, that there were no assets at all for distribution among the stockholders at the time its activity ceased in 1921 or possibly 1922. The company attempted to acquire oil leases in the state of Texas and also expected to do general drilling for other oil companies. Through inability of Mr. Tate, the president, and his asociates to sell much stock, its program was not carried out. The stock of the West Continent Oil Corporation has no value whatever.

West-Mar Company. Organized in 1924 as a holding company for the purpose of controlling various insurance companies including the Great Western Fire Insurance Company and the Marquette National Fire Insurance Company. The Great Western Fire Insurance Company was thereafter merged with the Marquette National and therefore the only asset of the West-Mar Company consisted of a large holding of Marquette stock. Marquette National has been in the hands of a receiver for the past two years. All of the claims have not been adjudicated and not all of the assets have been, as yet, converted into cash. It is therefore not possible at this time to say whether there will be anything left for Marquette stockholders after the payment of claims. The value, if any, of West-Mar stock depends entirely upon what is left for Marquette stockholders. It will no doubt be several months, at least, before this will be determined. The receiver, unofficially, ventures the opinion that Marqutte claims will be paid in full, but is in doubt whether anything will be left for stockholders.

Western Empire Petroleum Company. Incorporated under the laws of Utah in 1921 with a capital stock of 800,000 shares, par value $1 each. Issued in last reports 761,913 shares. Property consists of 4,200 acres Summit County, Utah. Officers: J. J. Doyle, president; R. W. Powers, vice-president; Franklin Riter, secretary-treasurer. The purpose of the company was to drill the Coalville Utah Well for exploration. Franklin Riter, secretary and treasurer of the company, writes that this well was drilled to a depth of 3,820 feet when they encountered hot sulphur water, which of course spelled "finish" for them. $225,000 were expended in the five years of operation. Of this $225,000 the sum of about $40,000 was raised in Salt Lake City, Ogden, Coalville and Park City, Utah, the balance being supplied by Messrs. Doyle and McKoen of Los Angeles. Upon completion of the drilling operations the machinery and equipment were sold for $7,500 and the well for $8,000. Coalville City bought the well in order to secure the hot sulphur water for a public bathing resort. Out of this $15,500 so secured all debts of the company were paid and the balance turned back to Doyle and McKeon for funds loaned by them to the company. Doyle and McKeon took a loss of about $170,000 on the venture. Drilling operations were finished in August, 1927. Mr. Riter writes that no salaries of any kind were paid to the officers, the payroll being confined to employees engaged in actual drilling operations. Practically all the money went in the well; the small overhead covering telegraph, postage, office supplies, freight and transportation charges, etc. When the company quit operations Mr. Riter states it owed no one except Messrs. Doyle and McKeon and although the company was not successful in their work, they feel that no exploitation company in the inter-mountain country made a better record than they did, having made good their promise that the well would be drilled to a depth where either oil was discovered or conditions developed which made production of oil impossible. Mr. Riter also states that the officers were very appreciative of the loyal support of the stockholders and regrets that he is unable to tell another story. This company lost its charter in 1927 for failure to pay annual license tax.

Western Pacific Railway Company. Incorporated California March 3, 1903. Purpose: To construct and operate a line of road from Salt Lake City to San Francisco in the interest of the Denver & Rio Grande Railroad. Opened in July, 1911. Capital stock, authorized and issued, $75,000,000, par $100; $50,000,000 of total held by Denver & Rio Grande. Funded debt: First mortgage s. f. 5 per cent. bonds, due September, 1933; authorized $50,000,000; outstanding $49,925,000. Defaulted since September, 1914. Second mortgage 5 per cent. bonds, due July, 1952; authorized and issued $25,000,000. Wiped out later by reorganization plan. Office, San Francisco. The reorganization plan announced December, 1915, provided for formation of an operating and holding company, the latter to hold the stocks of the former and to issue in exchange therefor its own preferred and common stocks in exchange for deposited bonds of the Western Pacific Railway Company or sold with new bonds to an underwriting syndicate or disposed of otherwise. The holding company was also to retain the interests in any deficiency judgment against the old company apportionable to deposit of bonds, and also the claims against the Denver & Rio Grande R. R. with respect to interest upon deposited bonds or any guarantee endorsed on deposited bonds. Securities in hands of public would therefore be represented by $27,800,000 new first mortgage bonds of the operating company, $27,500,000 preferred and $47,500,000 common stocks of the holding company, except that the preferred stock to the extent of $500 for each $1,000 of old bonds as shall not become subject to this plan, and also common stock to the extent of $750 for each $1,000 bond is to be returned to the treasury of the holding company. Holders of the old first mortgage 5s who deposited their bonds and assented to the reorganization plan were entitled to purchase, at 90 and accrued interest, new first mortgage bonds equal to 40 per cent. of their deposited bonds, and will be entitled to receive in addition to the new bonds, and in exchange for his old bonds, 55 per cent. in new preferred stock of the holding company and 95 per cent. in new common stock. Bondholders who did not exercise the privilege to purchase the new bonds were to get, in exchange for their old bonds, 50 per cent. in new preferred and 75 per cent. in new common stocks. No provision is made in the plan for the allotment of any property, securities, or money provided by the plan

to holders of second mortgage bonds, to unsecured creditors or to stockholders of the old company. Any depositing bondholder who wishes to purchase the new bonds was obliged to file a contract of purchase prior to February 15, 1916. The Denver & Rio Grande R. R. guaranteed the old Western Pacific first mortgage bonds and through failure to maintain this guarantee was sold at foreclosure to satisfy a judgment action. Suit was brought by the Equitable Trust Company on June 14, 1917, and judgment was obtained against the Denver & Rio Grande R. R. for $38,270,343.17, of which the Equitable Trust has received $20,484,721.32 (including interest paid by depositories on recoveries) or a net amount of $19,676,221.31 of which amount $19,675,000 has been distributed by the Trustee to the owners of the first mortgage bonds of the Western Pacific Railway Company. Quotation from letter from Equitable Trust Company: "There are distributions payable on the first mortgage bonds totalling approximately $746.39 for each $1,000 bond. If no payments have been endorsed on the bonds owned, they should be forwarded to the Clerk of the U. S. District Court, Northern District of California, San Francisco, California, for the first payment, the subsequent payment being payable either at the Crocker First Federal Trust Co. of San Francisco or at this office. If the bond bears a stamp covering the seventh and final distribution we are of the opinion that these bonds are of no further value."

Woods Mobilette Co. This company was incorporated under the laws of Arizona on July 8, 1913, with a capital stock of $2,500,000. Shares at par value of $1.00 each, full paid and non-assessable; all stock being common stock. Capital stock was reported increased to $20,000,000 on September 28, 1915, to purchase the International Cycle & Accessories Co. and Auto Equipment Co. This company is reported to have turned out a few demonstration cars and on a visit to the factory at Harvey, Ilk, it was reported that the investigators found only three men employed there and that active manufacturing was expected to start soon. This was reported to be a get rich quick promotion of a broker of Chicago, who had, we understand, a rather doubtful reputation for promotions. The stock was selling at 20 cents a share and then sold for 25 cents a share. The last quotations reported were in 1921 when 1,000 shares were offered at 10 cents. The company is legally dead, the Arizona charter being revoked for failure to pay annual registration and report filing fees on September 27, 1927.

Company's outstanding capitalization: Par of shares, $100; first mortgage bonds, $500,000; second mortgage bonds, $200,000; preferred stock 7 per cent. cumulative $1,000,000, authorized $850,000; common stock (par $100), 4,000,000. Officers and directors: A. F. Rockwell, Bristol, Conn., vice-president and treasurer; H. R. Schwartz, secretary; P. J. Holdsworth, William M. Lybrand, Robert C. Watson, Charles F. Pope, William J. Moran and Allan Sexon, all of New York City and Charles T. Treadway of Bristol, Conn. The consolidated company had a large list of patrons and also furnished the transportation service for most of the principal clubs, hotels and restaurants in the city and also the taxicab service for the patrons of the Pennsylvania R. R. and the Central R. R. of New Jersey. It was due to the various private hack stands near or in front of these clubs and restaurants that most of the taxicab business and profits were brought in. Therefore, when a new ordinance abolishing private hack stands and at the same time fixing a lower schedule of fares, the Yellow Taxicab Company with other like companies found themselves in unfortunate positions. Several taxicab companies (including the Yellow Taxicab Company, Mason-Seaman Transportation Co., New Taxicab Company) and hotels made motions to the Court to restrain such an ordinance. The Yellow Taxicab Company stated in its complaint that the business directed to the offices or garages amounted to only 17 per cent. of the total and that the hotel and restaurant business furnished its only opportunity to realize a return on its investment and an affidavit was presented, according to the "New York Sun," showing that the company had never paid a dividend and had not earned enough from its taxicab business to pay interest on its debt. The gross revenue for the year ending May 21, 1913, was stated as $2,228,959 and the deficit for the year was $8,947. The rates of the new ordinance would reduce the revenues by $559,212. Company appealed to the higher court but the court held valid the ordinance and the Mason-Seaman Transportation Company and Yellow Taxicab Company merged in March, 1914, under the title of the Mason-Seaman Transportation Company as the companies were "eating themselves up" with reduced fares and no private stands. The new company had a capitalization of $5,000,000 preferred and $5,000,000 common. The officers were William H. Barnard, president and treasurer; Alan Sexon and E. B. Seaman, Jr., vice-presidents and James W. Salisbury, secretary; and A. F. Rockwell, president of the Board with Mortimer B. Fuller, F. P. Holdsworth, Francis Ducasse and Jacques Rosenberg. Allan Sexon and A. Leo Everett were appointed receivers of the company on March 31, 1916, by Judge Hough in the U. S. District Court, N. Y. Its assets sold in 1917 and this sale failed to net enough to satisfy creditors and therefore the capital stock of the Yellow Taxicab Company cannot be of any value.
